OPOZORILO

Nikoli ne dovolite otrokom da plezajo ali se obešajo na police, mostove in viseče mreže, ki so nameščeni na steno.

Hrvatski

UPOZORENJE

Nikada ne dopustite djeci da se penju ili vise s polica, mostova i visećih mreža postavljenih na zid.

Slovensko

POMNI! Priloženi vijaki za pritrditev so primerni za stene iz betona, votle in polne opeke, stene iz iverne ali OSB plošče in podobno. V kolikor vaša stena ni iz naštetih materialov vas prosimo, da se obrnete na najbližjo specializirano trgovino glede primernih vijakov za vaš tip stene. Največja nosilnost je bila testirana na steni iz opeke in betona, na vseh drugih tipih sten se nosilnost lahko nekoliko zmanjša.

Hrvatski

ZAPAMTITE! H priloženi vijci za pričvrščivanje odgovaraju zidovima od betona, šupljim i punim opekama, zidovima od iverice ili OSB ploča i sličnim materijalima. Ako vaš zid nije od navedenih materijala, molimo vas da se obratite najbližoj specijaliziranoj trgovini za odgovarajuće vijke za vaš tip zida. Maksimalna nosivost testirana je na zidovima od opeke i betona; na svim ostalim vrstama zidova nosivost može biti nešto manja.

Deutsch

WARNUNG

Vorsicht, nicht für Kinder geeignet! Es ist strengstens verboten an Regalen, Brücken oder an der Wand montierten Hängematten zu klettern oder/und sich daran zu hängen.

English

WARNING

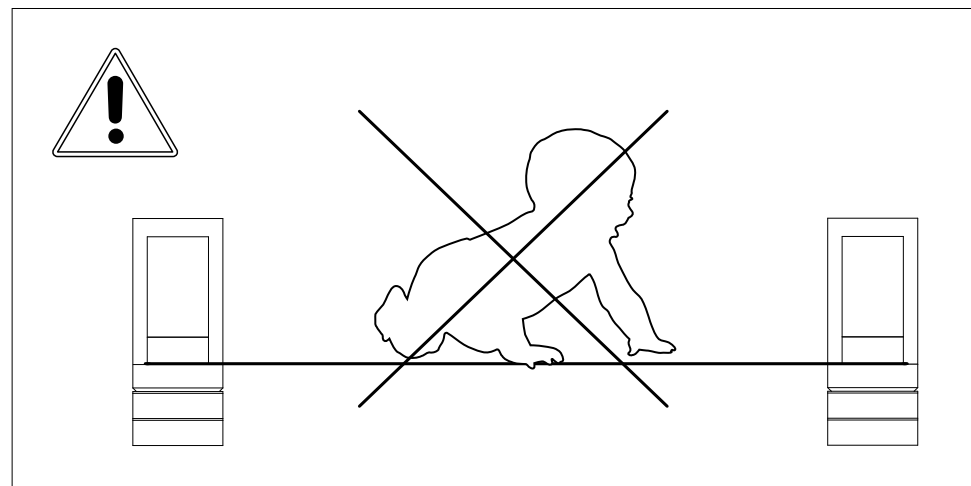

Never allow children to climb or hang from shelves, bridges and hammocks mounted on the wall.

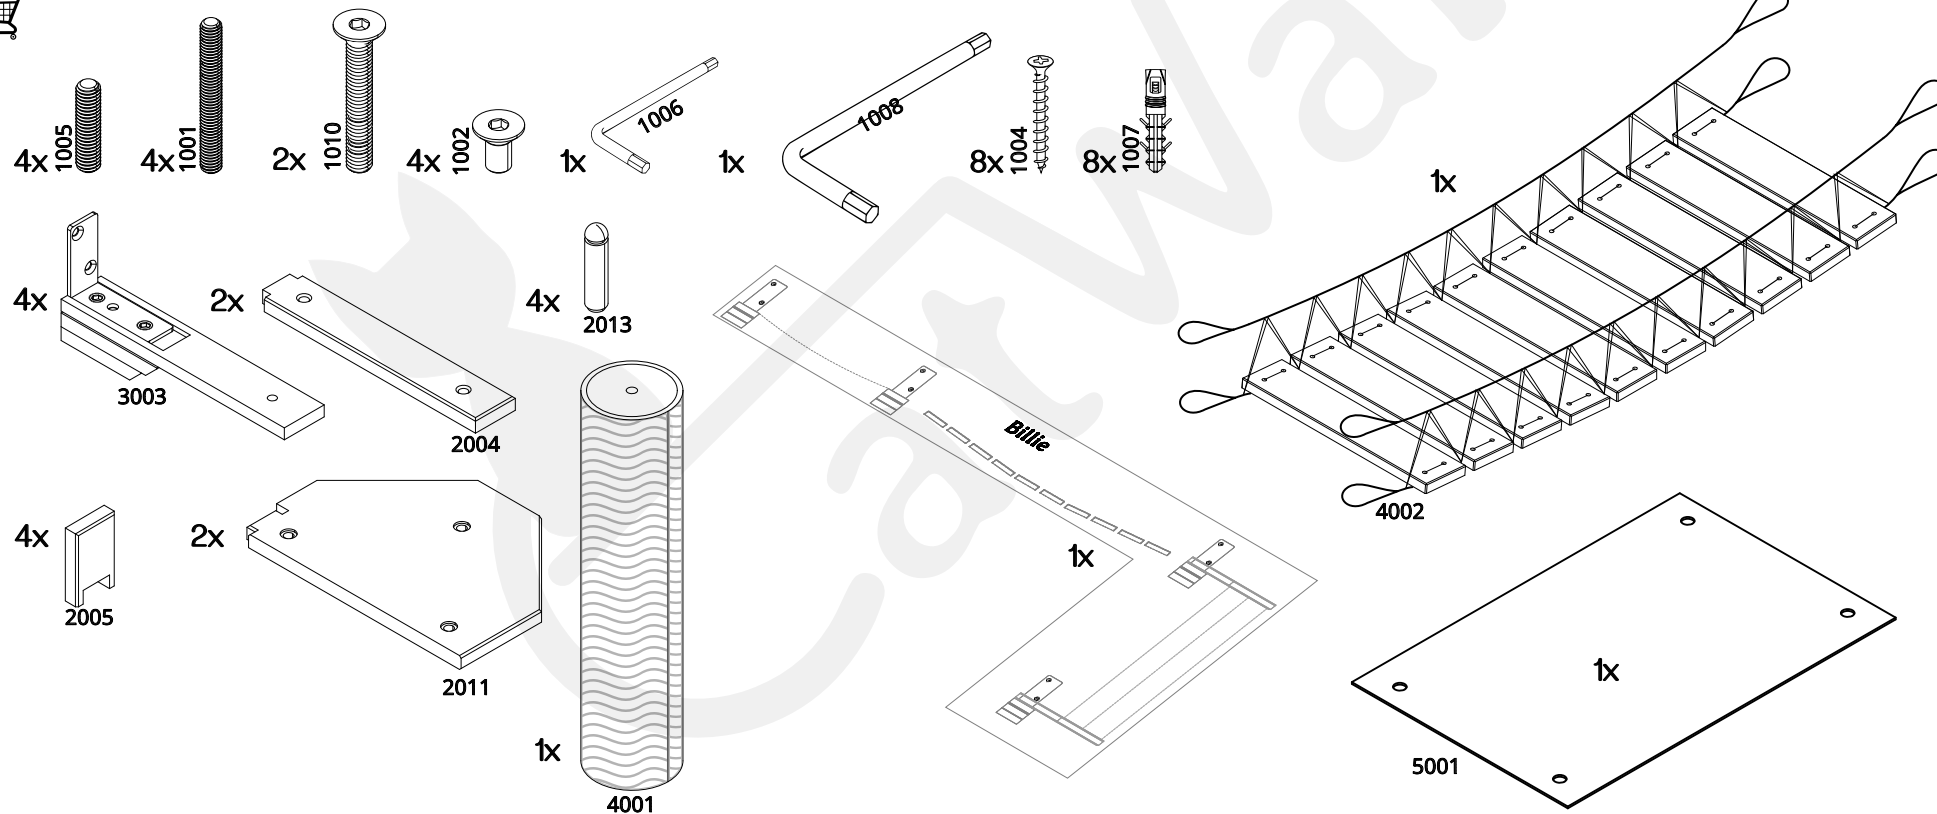

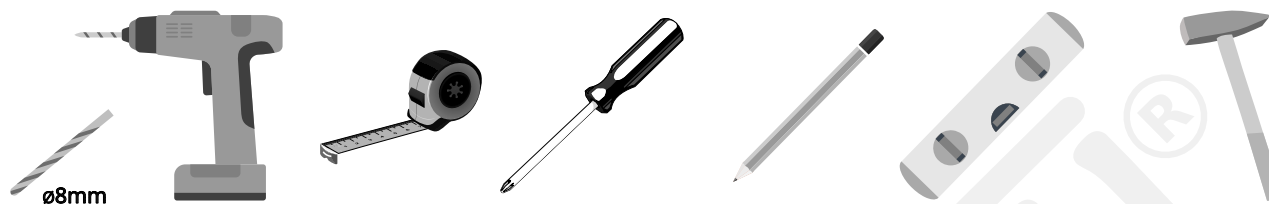

Deutsch

MERKE! Die beiliegenden Befestigungsschrauben eignen sich für Betonwände, Hohl- und Vollziegel, Wände aus Spanplatten oder OSB-Platten und ähnliche Materialien. Falls Ihre Wand nicht aus den genannten Materialien besteht, wenden Sie sich bitte an das nächstgelegene Fachgeschäft für geeignete Schrauben für Ihren Wandtyp. Die maximale Tragfähigkeit wurde an Ziegel- und Betonwänden getestet; bei allen anderen Arten von Wänden kann die Tragfähigkeit leicht reduziert sein.

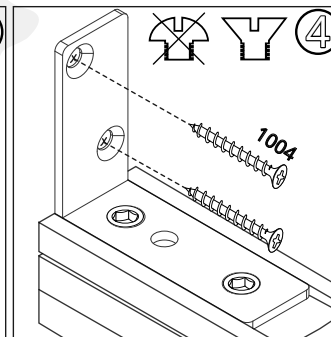

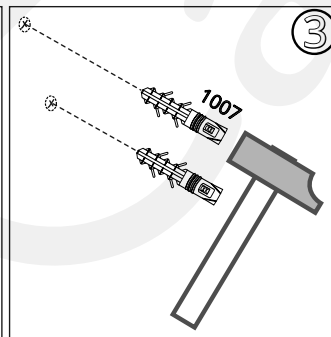

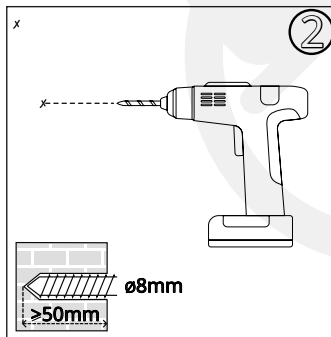

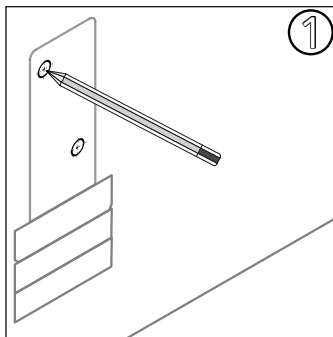

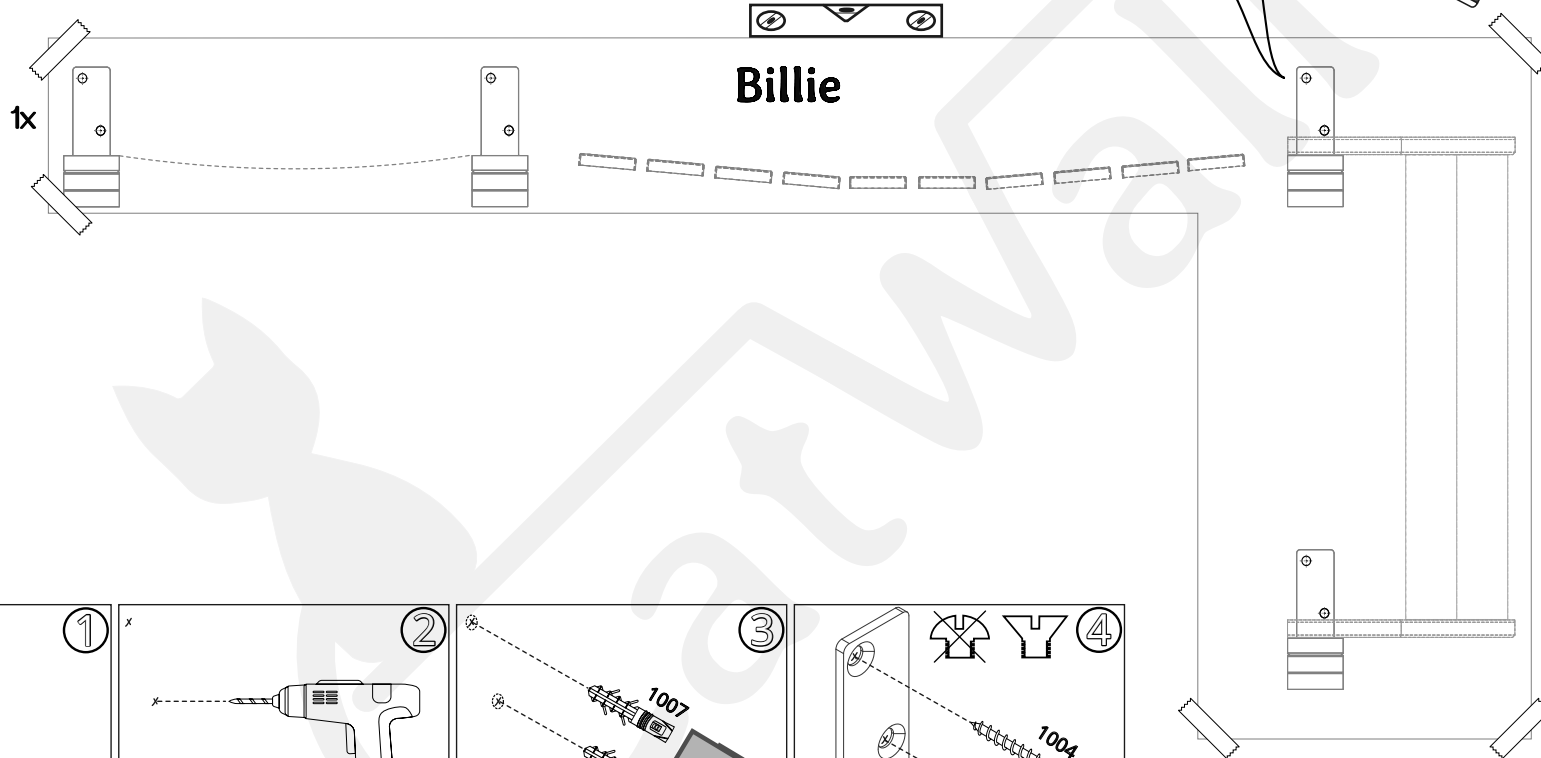

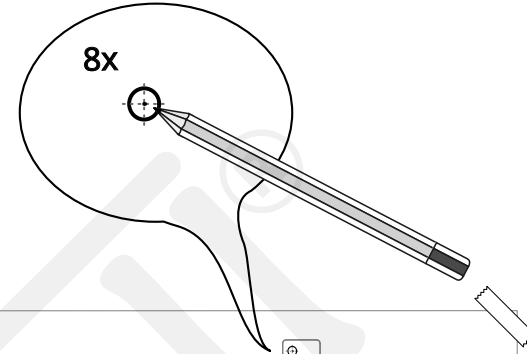

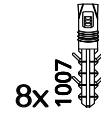

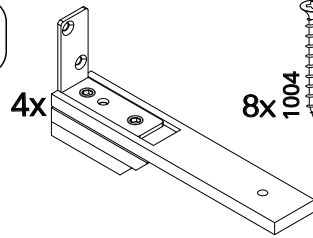

English

NOTE! The provided screws for attachment are suitable for concrete walls, hollow and solid bricks, walls made of chipboard or OSB panels, and similar materials. If your wall is not made of the mentioned materials, please contact the nearest specialized store for suitable screws for your type of wall. The maximum load capacity was tested on brick and concrete walls; on all other types of walls, the load capacity may be slightly reduced.
